

# LOGLIFE RAISED GARDEN KITS

and

## SQUARE METRE GARDENING

# Plastic Recyclers

AUSTRALIA

A unique ,simple and versatile system that adapts to all levels of experience ,age ,physical attributes and geographical location.

*Grow vegetables ,herbs and flowers in only a percentage of the space of conventional gardens .*

- Saves time ,space ,money ,work and water.
  - All natural – no pesticides to handle.
  - Can be started in any season.
  - No or little weeding, thinning or heavy digging required.
  - A great ongoing project for families. Great for kids of all ages.
  - Very productive – just enough as you need it
- 
- Purchase a Longlife Raised Garden Kit
  - Layout your kit / kits in an area that has at least 6-8 hours of sunshine daily.
  - Position your kits singularly or side by side to 200mm high or perhaps tiered with one kit to 400mm. Perhaps you can position them one metre apart to allow for an aisle. **You decide.**
  - Fill with soil / compost mix.
  - Each individual square metre raised garden kit needs to be measured out into 9 small square grids.
  - Plant a different vegetable ,herb or flower in each of the 9 square grids using 1,4,9 or 16 plants per square grid. ( See below )
  - Water
  - Harvest
  - When you finish harvesting a square grid , add some more compost and replace with a different crop. For example if you started with a root crop ( Beetroot ) in the square replace with a leaf ( Lettuce ) or fruit ( Tomato ) crop next.

- |               |  |
|---------------|--|
| 1 per square  | Tubers / potatoes , ginger, horseradish.<br>Leaf crops / broccoli , cabbages.<br>Fruits / watermelon , tomatoes , artichokes , eggplant , cucumber . |
| 4 per square  | Herbs / parsley , oregano , mint.<br>Leaf crops / lettuces.<br>Fruits / soybeans ,corn , strawberries.   |
| 9 per square  | Tubers / beetroot , turnips , garlic.<br>Leaf crops / spinach.<br>Fruits / peas , string beans.  |
| 16 per square | Tubers / carrots , radishes , onions.  |

*The technique of square metre / grid gardening is so simple that everyone says “ I can do that “*
